Our *Story*

kanopi started when a storm of harassment disturbed our thinking and brought us down to our knees, the canopy of our imagination shielded us against disruptive aggression. This canopy is our shelter, and teach us how to conquer ourselves, train our resilience, and grit our teeth. We learned to adopt the virtue of endurance, to continue to strive to be a solid roof soonest possible.

About Us

kanopi is an information technology (IT) solutions company providing consultancy and IT services catering to a wide range of industries and market segments. We strive to carry on with the legacy we left and continue to support our customers with passion.

What Makes Us Different

kanopi's differentiation point comes with 4 simple principles:

- A great working team that believes and have faith in the organization inspires the group to work tirelessly to achieve group mission and overcome adversity.
- Genuine collaboration with customers and partners.
- Providing insightful consultation by fully comprehending the needs and demands of our clients.
- Persistence in providing fanatical services to each and every client.
